

# CSCI 571(Summer 2025) - Assignment 1 Rubrics

**Link to the assignment:** [https://bytes.usc.edu/cs571/m25\\_TheWeb-bu/hw/HW1/index.html](https://bytes.usc.edu/cs571/m25_TheWeb-bu/hw/HW1/index.html)

**Total Marks: 10 marks** (3 points on HW1-a.html, 3 points on HW1-b.html, 3 points on HW1-c.html, 1 point on LLM screenshot)

## **Rubric**

**Late Submission:** 10% per day (−1.0)

*[Assignment Due: 7/16 by 11:59PM]*

### **General checkpoints**

- Did not use “llama3” or “gemma2:2b” without clarification (inferred from screenshot) (-1); we can be lenient on this, ie. it’s ok if other LLMs were used (eg. newer llama ones, Qwen Coder, etc), without any explanation as to why. So, let’s apply the -1 deduction sparingly.
- Streamlit app is clearly not used (missing structure, etc.) (-0.5)

### **Task 1: HW1-a.html: Paragraph Styling (Max: 3 pts)**

- Missing html (no submission) (-3)
- Page does not render properly or opens with errors (−1.5)
- Paragraphs missing “Lorem ipsum” text (-0.5 each)
- Missing or incorrect font sizes (10px, 12px, 15px, 20px, 30px) (−0.25 each, deduction cap: −1)
- Missing or incorrect 10px solid borders (−0.25 each, deduction cap: −1)
- Border colors not following rainbow order (red, orange, yellow, green, blue) (−0.25 each, deduction cap: -1)

### **Task 2: HW1-b.html: CSS Slideshow (Max: 3 pts)**

- Missing html (no submission) (-3)
- Page does not render properly or opens with errors (−1.5)
- **Slideshow is not implemented with CSS-only (ie. JS present, for slideshow functionality)** (−1.5)
- Fewer than 10 images (−0.1 per image, deduction cap: −0.5)
- Broken/missing image links (−0.1 per image, deduction cap: −0.5)
- No visible slideshow or transition effect (−1)

**Task 3: HW1-c.html: JavaScript Slideshow (Max: 3 pts)**

- Missing html (no submission) (-3)
- Page does not render properly or opens with errors (-1.5)
- **Slideshow not implemented using JavaScript-only (ie. CSS used)** (-1.5)
- Fewer than 10 images (-0.1 per image, deduction cap: -0.5)
- Broken/missing image links (-0.1 per image, deduction cap: -0.5)
- No interactivity or script failure or JS logic broken, slideshow non-functional (-1)

**Task 4: (At least one) Screenshot of LLM Prompt and Output (Max: 1 pt)**

- No screenshot is provided (-1)
- The prompt or LLM response is unclear or only partially visible in the screenshot (-0.5)
- The HTML files corresponding to the attached screenshot(s) must contain raw LLM outputs without any user edits. (-0.5)
